

Prayer for Creativity

Author, Lezli Goodwin

There is an Infinite Presence, an omnipotent Intelligence, that is the organizing Principle of All of Life. This One that we call Spirit is in all, of all, as all, expressing as the powerful and beautiful unfoldment of absolute Perfection. It is forever and ever expanding, as It creates more Life out of Itself. It is the very Essence of Creativity.

As a creation of this One, I am made of that which It is. As such, I am creative in my nature. There is no part of me that is separate from Spirit, and no aspect of Spirit which is missing in me. Creativity, expression, the calling forth of more, is built into my being by That Which Made Me. I can be nothing less, for nothing made of God can be lessened. And I am made of God.

And so I speak my Word right here and right now, claiming my own profound creativity. The Divine Creative Truth of my nature shows up as a connection to my own inner Intelligence and Wisdom, pouring forth wonderful and innovative ideas. It shows up as the revelation of my expression and expansion as I develop those ideas. And it shows up as the activation of my order, discipline and balance as I act upon those ideas. I manifest my Divine ideas powerfully in the manifest realm of the physical world.

I am so grateful to recognize my powerful creative nature, knowing that my ideas are already in the Mind of God, and are heading to manifestation right now.

With complete trust and faith, I release this spiritual mind treatment into the Law of Cause and Effect. I know that it is already so in the Mind of God. I let it be so. And so it is!
